Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Group I, Claims 1-13, 20, 23 and 25, drawn to a system and a process of using for aligning a wafer to a reticle, classified in class 257, subclass 98.
 - II. Group II, Claims 14-19, 21-22 and 24, drawn to a system and a process of using for facilitating surface inspection utilizing surface inspection equipment, classified in class 438, subclass 462.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operations, different functions, or different effects (MPEP 806.04, MPEP 808.01). In the instant case, the different inventions have different modes of operation and different functions. The five inventions are patentably distinguished by their mutually details as set out above. The limitations recited in the invention I has not been recited in the other inventions II, and vice-verse. The limitations recited in on one Group, but not in the other Group evident that the various combinations are patentable distinct from each other because a reference which anticipates one of the invention would not, in and of itself, makes the other inventions obvious.

3. If Applicants elect Group I (claims 1-13, 20, 23 and 25), Applicants are advise to amend claim 20 because in claim 20, line 8, after term "and", Applicants lack an antecedent basic of the limitation in the claim. Correction is necessary required.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by either different classification, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement to be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

7. Any inquiry concerning this communication or earlier communication from the examiner should be direct to Phuc T. Dang whose telephone number (571) 272-1776. The examiner can normally be reached on Monday through Friday from 8.00am to 5.00pm.
